PROFESSIONAL SUMMARY

Master's student in Business Analytics and Data Science at IE Business School with a strong interest in venture capital and the full investment process. Experience in fund operations at ADEPA and in building Python projects for data structuring, forecasting, and workflow improvement. Completed 30+ certifications across DataCamp, Coursera, and LinkedIn Learning in machine learning, MLOps, SQL, Python for finance, and corporate finance, which reflects my learning mindset and an interest in applying technology in investment teams.

EDUCATION

IE BUSINESS SCHOOL — **MADRID, SPAIN**
Masters In Business Analytics And Data Science — EXPECTED JULY 2026

- Big Data & AI, SQL based Data Architectures, Machine Learning, Data Visualization, Machine Learning Operations.

UCLouvain Saint-Louis Brussels — **Brussels, Belgium**
Bachelor Of Business Engineering Bilingual (FR-EN) — JULY 2025

- Important courses: Business, Financial modelling, Organizations management and Financial Markets Analysis.

PROFESSIONAL EXPERIENCE

ADEPA GLOBAL SERVICES LUXEMBOURG (FUND ACCOUNTING) — **MUNSBACH, LUXEMBOURG**
Intern — JUNE 2025 - AUGUST 2025

- Supported fund accounting operations in eFront, including invoice booking, capital calls, and bank reconciliations.
- Reviewed valuation and weekly reporting to strengthen understanding of fund operations and financial modelling.
- Prepared daily reports and client correspondence, reinforcing attention to detail, reliability, and communication in a regulated environment.

EARLIER STARTUP INTERNSHIPS: ZENVIEW, VRCREATIVE, LUXAI — **Luxembourg**
Intern — Summers 2019-2020

- Worked on VR environments, a virtual shop project, and supplier research, which gave early exposure to startup environments and practical problem-solving.

SKILLS

Python, SQL, Excel, Power BI, pandas/polars, ETL/ELT, web scraping, machine learning/MLOps fundamentals, workflow automation, LLM tools (Claude, ChatGPT, Antigravity), financial analysis, fund operations, market research, public speaking

LANGUAGES

Fluent in **English** with over 15 years of academic and professional practice, native **French** speaker. Conversational level in **Spanish**, basic **German** acquired through courses and cultural immersion**.**

MAJOR PROJECTS & CONTINUOUS LEARNING

- Built small Python scripts to scrape and structure online company information; explored how these workflows could support early-stage screening and KPI extraction.
- Worked on ML projects for forecasting and scenario analysis, and studied agent-based workflow concepts for repetitive research, tracking, and reporting tasks, which could be used to support early-stage screening and deal sourcing processes.
- Completed 30+ certifications across DataCamp, Coursera, and LinkedIn Learning. Selected topics: AI Agents with Hugging Face smolagents, Python for Finance, Credit Risk Modeling in Python, Financial Statements Analysis in Python, Corporate Finance Fundamentals, and Private Equity & Venture Capital.

OTHER INTERESTING INFORMATION

- 2020: Acted in a professional theatre piece at Théâtre Ouvert du Luxembourg called "Rabbit Hole".
